

**Leader in
Ozone Machines
Manufacturing**

About Our Working

1. Our Company K.H. OZONATORS SYSTEMS & ENGINEERING Offers intelligent, innovative solutions for air and water treatment.
2. K.H. OZONATORS is an ISO (9001: 2015) certified company, with 100% made in India Products.
3. We provide the service to all types of Ozonators and have company service centers & give PAN India service .
4. Our research team executes research on OZONE GAS to draw the best solution for our customers and upgrading our products at affordable pricing.
5. We supply Ozonators & other products with an one year of warranty on our products and free services of the same period.
6. We also provide the AMC (Annual Maintenance Contract) for the given products.
7. Our fact begins to hit an innovative solution in the market and show up something which can give excellent results and environment friendly.

Working of Ozone

What We Do

1. K. H. OZONATORS is a leading name in ozone consultancy.
2. Manufacturing World class ozonators at an affordable price since 30+ years.
3. Our ozonators are made of international standards and working satisfactorily.
4. K. H. OZONATORS is a leading OEM manufacturer of various ozonator such as for air & water treatment, medical ozone machines.
5. K. H. OZONATORS system adopt and confirm to International Standards, thus out beating all other substandard ozonators.
6. We design machine with the amount of power that is required to remove the organic and chemical load in water.

Our Products

Ozone Machine

Our Ozonator is in S.S. with completely short circuit proof / Over load protected. Compact light in weight with latest Ozone technology to generate high capacity ozone to Disinfect Water with minimum power consumption and minimum brake down.

Application examples: Bottled water, Food & beverage safety, Fruit Decay Prevention, Wineries, COD, BOD, washing off insecticide, pesticides, swimming pools, and various water bodies, etc.

Benefits:

Ozone is over 3000 faster to purify water, ozone is less corrosive than chlorine, dissolve ozone in water will not irritate skin, nose, ear, leaves no unpleasant chemical taste or smell, oxidizes and destroy oil and other contamination in water.

Oxygen Concentrator

Industrial Oxygen Generator carries forward our commitment of providing reliable, cost-effective and quality products. An Industrial Oxygen Generator is a machine that generates medical oxygen. It runs on electricity and the only maintenance required is the regular cleaning of filters.

Benefits:

The Industrial Oxygen Generator has been designed to provide a combination of enhanced features, reliability of a proven technology and unsurpassed quality.
