

The Ultimate Medical Ozone Generator With the next generation ozone technology.

The Medical Ozone Generator MedOxy3 are Next Generation Ozone Generator designed to produce medical grade ozone i.e. ozone gas useful for ozone therapy. It uses Pure Quartz Dielectric Ozone cell, corona discharge ozone technology, and latest IGBT based electronic high frequency technology to deliver precise 65 micro gram / ML and 75 micro gram / ML ozone using pure medical grade oxygen as feed gas.

All the parts in contact with ozone are of Quartz, Teflon, & Silicon. Ozone out put from MedOxy3 Ozonator is free from any metallic particles and can be safely used to administer into parental solutions.

The MedOxy3 is suitable for systemic as well as external ozone application.

Salient Futures Of Medoxy.

1. Ozone gas does not have any metal ions.
2. Designed for Ozone autohemotherapy & Injections.
3. Adjustable ozone concentration 60 & 100 microgram/ml.
4. Precision ozone cell, quartz dielectric & special ozone connectors.
5. Design for continuous operation, long service life.
6. Portable, Rough, Compact, decent design easy to handle & carry.
7. Stainless Steel Enclosure.

MedOxy is useful to treat. Eye & Ear Disorder, ischemic Disorder, Complications of Diabetics, Gastro-intestinal disorder, Hematological Disorders, Dental Problems, Cosmetics, Arthritis, Cancer, Nerve tissue disorder, Infections, Skin diseases, Wounds & Burns, Immunity disorders, Slip Disc & Infertility problems.

TECHNICAL SPECIFICATIONS	
Models	MedOxy
Feed gas – 1 LPM	Medical Grade Dry Oxygen
Ozone Out Put	15 - 65 Mg/ L
Oxygen	0 - 1 LPM Through Control Valve
Ozone Out let	6 mm Teflon/ Silicon tube
Inlet /Outlet connection	6 mm
Oxygen / Ozone Tube	6 x 10mm Silicon Tube, 5 meters.
Oxygen pressure	Up to 10 Psi
Enclosure	Stainless Steel
Power	230 Volts 50 Hz., 75 Watts,
Weight	7 Kgs,
Optional Accessories	Oxygen Flow regulator, Silicon Ozone Tube, PTFE Teflon Tube, Oxygen Filter, Cupping Funnels, Oil & Water Ozonation Bottle.
